

STEF expands its capacity in Switzerland

The STEF Group has announced the opening of a new site in the municipality of Givisiez in the canton of Fribourg. It confirms the Group's objectives in the chilled and frozen foods transport and logistics market in Switzerland.

According to Christophe Gorin, STEF Group Business & Northern Europe Cluster Director:
“This new site gives us an extensive and improved territorial network. It means we can offer our customers in the Swiss agri-food industry effective coverage of all production and consumption areas, thus supporting their development.”

On this 25,000 m³ site, STEF Switzerland offers local storage, order preparation, co-packing and associated transport services throughout the country.

With the commissioning of this new site, STEF Switzerland, with 120 employees, now operates on five sites: Bussigny, Cadenazzo, Givisiez, Kölliken and Satigny.

About STEF – www.stef.com // www.stef-schweiz.ch

STEF is the European leader in temperature-controlled logistics and transport services. Its mission is to be the link between the agri-food and consumer worlds. To this end, the Group carries chilled, frozen and thermosensitive food products from their production sites to their consumption sites under the best conditions in terms of food safety, lead time and quality. STEF offers its expertise to a large customer portfolio composed of agrifood manufacturers, retailers and out-of-home foodservice business to increase the efficiency of their supply chain in a sustainable way. The Group has a turnover of more than €3 billion, close to 240 sites across 7 countries and employees 18,000 people. STEF company is listed on Euronext Paris.
